

# Ian Lane Derrick

A self-directed, goal-oriented, team worker seeking a position providing an opportunity to utilize networking skills and work background while pursuing growth in programming and security.

**Technology Specialist III**  
Cheney, WA

**August 2021 to Present**  
Cheney Public Schools

Duties performed: Set-up and maintenance of multiple types of computer systems including servers, switches, and security equipment. Analyzing system faults, troubleshooting, and running diagnostic tests on operating systems and hardware to detect problems across multiple schools. Initiate preventive maintenance and solve environment problems. Maintain Google Admin for the district's 5000+ Chromebooks. Manage Microsoft Endpoint Configuration Manager. This position requires me to be flexible and able to fill in any technical support role as needed.

**Systems Engineer / SysAdmin**  
Meridian, ID

**February 2013 to August 2021**  
Gem Prep

Duties performed: Coordinated the implementation, maintenance, and troubleshooting of network hardware and operating systems across six sites in Idaho. Analyzed network performance along with physical checks in order to maintain, upgrade, or replace hardware as needed. Maintained security systems and monitoring for all sites. Helped with vendor ordering and purchasing. This role provided tier three support to end users as necessary, while also supervising and delegating issues for on-site tech support roles.

**ESL Teacher**  
Pusan, South Korea

**January 2008 to January 2012**  
Buk Gu Hogwon Academy

Duties performed: Teaching English to Grade 3 through 12 students in self designed curriculum including a special night class for first year university students.
